Profile

I am studying for my Bachelor of Engineering degree in Electronics and Communication at Tagore Engineering College, where I am gaining a solid foundation in electrical engineering concepts, such as circuits, signals, systems, and networks. I am interested in applying my knowledge and skills to real-world problems and projects that can make a positive impact on society.

As a creator at YouTube, I am pursuing my passion for creating engaging and informative videos on various topics, such as engineering, education, and entertainment. I have learned how to use Microsoft PowerPoint, Adobe Premiere Pro, and other tools to produce high-quality content that attracts and retains viewers.
